**Flag:** Follow up

Jim, Dean Maraldo forwarded this document to me. It was an IEPA email included with a collection of records we received from an interest group representing the citizens of Centreville. They must have got it through an IEPA FOIA request. He provided it only because it's the only real evidence we have of any potential drinking water issues here. Please feel free to bring it up at your next IL call.

Thanks Jim,  
 Beth

**Subject:** Centreville WOUS search

Hi Beth,  
 For our upcoming work in the East St. Louis area and specifically Centreville, we would like to know if your 404 folks can look into the WOUS status of Harding Ditch and the Cahokia Canal, shown on the attached map. The flow path we are interested in begins at the "A" on the map on Harding Ditch, and flows to Cahokia Canal, then to the Mississippi. Would the 404 folks be able to help us out with this?

Thanks,  
 Dean
